26 ABOUT US

Reconnect with what's real.

Mayfair by Bemis offers a line with features that fit the real you. We are committed to -

- Providing a Product Line with Features and Benefits that Meet Consumer Needs
- Products that Encourage Trade-Up and Maximize Sales and Margin Dollars

We understand that feeling free and relaxed in your bathroom is an essential element in your day. That's why we make toilet seats that let you feel perfectly comfortable being perfectly natural, with designs that are in tune with your body.

Innovative engineering that understands and enhances your experience with a wide range of stylish choices that blend beautifully with your surroundings.

Everything we do is designed to help make your bathroom a place to reconnect with what's real.

That's a very welcoming place to be.

Sustainability

Rediscovered Wood

More than 4 million pounds of post-industrial wood shavings a month become recycled wood composite toilet seats marketed worldwide by Bemis.

Reclamation of wood waste minimizes air pollution and depletion of forest-based natural resources.

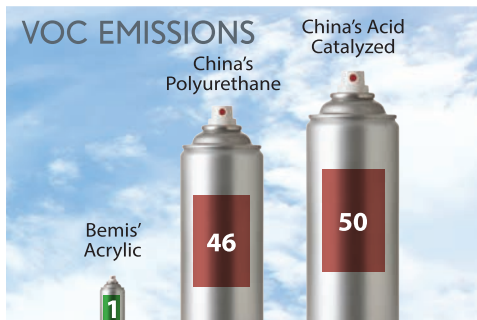

All toilet seats are packaged in recycled and recyclable corrugate.

Recycled Plastics

Processing product waste and post-consumer plastic keeps secondary materials from entering our landfills.

Co-injection molding, a process pioneered by Bemis, uses regrind waste in the cores of its products, instead of discarding it into landfills.

Water-Based Paint

Environmentally friendly colorants and water-based paints significantly reduce VOC emissions.

Painting 12 enameled wood seats emits the same VOC emissions as a single can of 8 oz hair spray, which is up to 50 times less than other processes.

Made in the USA

Family-owned since 1901, Bemis Manufacturing Company has been improving our customers' lives by creating seats engineered with innovative features and quality craftsmanship built in the USA. With a wide variety of materials and styles, our seats have features that simplify your life, while providing stability, comfort, and plenty of design choices. We take great pride in ensuring both value and quality in our innovative products for everyday life.
